Knox Box Program City of Morenci Commercial, Industrial and Schools

Dear Morenci Business:

The Morenci Fire Department is currently working with the Knox Company out of Phoenix, Arizona to develop and launch a Knox Box Security System within the City of Morenci and the surrounding area. The Knox Company has been in business for over 40 years and services 11,000 communities nationwide, they are the leaders in the fire business for secured locked systems for the fire service.

As the Fire Chief for the City of Morenci, it is my job to look at and help minimize the cost or loss to a property or business owner in the event of an incident at your place of business. The Knox Box Security System will eliminate needless, costly forced entry damage that may not be covered by your insurance deductible, and the Knox Box Security System will assure immediate building entry by firefighters without delay or waiting on a set of keys. We currently carry many sets of keys for buildings in our response area, the Knox Box Security System will eliminate the need for the Morenci Fire Department to carry many keys, which allow us and you to be more secure in doing so.

The Morenci Fire Department will be having an informational meeting on May 19, 2015 at 7:00 p.m. at the Morenci Fire Station. Our area representative from the Knox Box Company will be here to discuss the program and show the product line that is available from the Knox Company. Fire Chief Rick Sluder from the City of Wauseon will be here to discuss the Knox Box Security System that has been implemented in his community, and to also share the benefits that he has seen while using the system.

This will be a good opportunity for business owners, industrial leaders and school leaders to see the products, hear the benefits of the Knox Box Security System, along with the vision of the Morenci Fire Department in moving this program forward within our community.

If at any time you have any questions, please feel free to call or e-mail me.

Regards,

Brad Lonis

Morenci Fire Chief
